

# PGW Wants to Raise Your Gas Bill During a Pandemic

PGW wants to increase customer rates by \$70 million per year.

They say the average household's gas bill would go up by 11.2%, but the actual increase could be much higher.

Their proposal would increase the fixed monthly charge from \$13.75 to \$19.25, a 40% increase, and that's without using any gas!

**Gas bills are already too high for lower- and middle-income families.**
