

Need Help Paying Your Electric Bill?

PECO's Customer Assistance Program can help!

WHAT IS CAP?

PECO's Customer Assistance Program (CAP) is a program to make your electric bill more affordable.

PECO customers who sign up for CAP receive a monthly credit towards their electric bills. They may also be eligible to receive debt forgiveness over 12 months of payments.

WHO QUALIFIES?

PECO customers with monthly household incomes at **150% or below of the Federal Poverty Line (FPL)** qualify for CAP.

Number in household	1	2	3	4
150% FPL (2020)	\$1595	\$2155	\$2715	\$3275

Each additional person: add \$560 to monthly income

HOW DOES IT WORK?

- CAP credits are calculated based on:
 - Monthly Household Income
 - Past Energy Usage
 - Energy Burden

"Energy burden" is the percent of your monthly income that should go towards paying a utility bill (between 5-7% for many customers)

- The credit is divided over 12 months and applied to each bill
- During months that PECO bill will be higher, a larger credit is applied
- PECO re-calculates your energy credit based on energy usage every three months

HOW DO I APPLY?

- There are several ways to apply for CAP:
 - **Online** at www.PECO.com/help
 - **Mail** your application, along with required proof of income, to: PECO CAP, P.O. Box 467429, Atlanta, GA, 31146
 - **Fax** application to 1-855-358-9369 (Toll Free)
 - Note: include account number and name on every page
 - **E-mail** application to PECOCAP@exeloncorp.com
- **You will need:** Name, Date of Birth, Account Number, Address, Names, and Proof of Income for **all** household members

YOUR RESPONSIBILITIES ON CAP:

- Pay monthly CAP bills on time and in full
- Tell PECO if household size or income changes
- Apply for LIHEAP

CLS phonedlines are open for new clients! If you have problems applying for CAP or face other utility issues, contact **215-981-3700** and leave us a message. For more information about CLS, visit clsphila.org

What is a Neighborhood Energy Center?

Neighborhood Energy Centers serve as “one-stop-shops” for all energy services and provide a comprehensive approach to energy problems for low to moderate-income consumers.
